FORAGE 3615™
GUIDE

PRO HARVEST SEEDS®

ProHarvest Seeds utilizes forage genetics that provide a balance of high quality with excellent tonnage. Our improved grasses and forages are selected from around the world and are chosen for quality, yield, persistence, disease resistance, and maturities that make it easier to manage hayfields and pastures.

ProHarvest Seeds is an independent seed company focused on providing world class seed to farmers. We offer a full spectrum of products, utilizing the best combination of genetics, traits and treatments to optimize your successful harvest. ProHarvest Seeds, home office in Ashkum Illinois, is one of the fastest growing independent seed companies in the US.

What started as a locally-focused company has now expanded throughout the Midwest. ProHarvest now has over 120 dealers and Regional Owners in 9 states, from Ohio to North Dakota. A sales team of Seed Specialists, combined with Regional Owners has fueled this expansion, while maintaining local and personalized service.

PROHARVEST SEEDS[®]

866.807.7015 | proharvestseeds.com

ProHarvest Seeds provides top quality options.

At ProHarvest Seeds we pride ourselves on being your complete seed supplier. We work with other quality seed suppliers to offer you a wide array of Forages, Sweet Corn, Turf Grasses, CRP mixes, and Wildlife plot seed to fit your needs.

Alfalfa

Recommended Seeding Rates

Alone (Pure Stand)	18-22 lbs/Acre
In a Mix (Grasses)	8-16 lbs/Acre

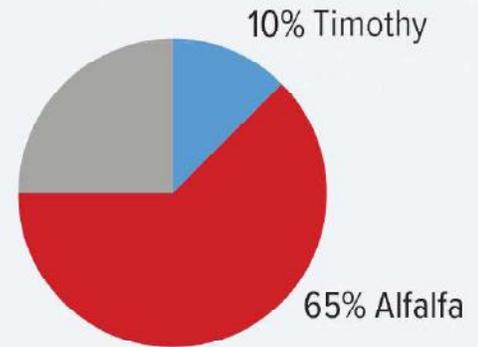

AlfaCut Hay Mix

Features:

This ready to seed mix includes Alfalfa, Orchardgrass, and Timothy. The premium varieties in this mix are selected for a superior yielding, high quality dry hay or for haylage production. AlfaCut makes excellent horse and dairy quality hay.

25%
Orchardgrass

Rate: 25 lbs/Acre

ProHarvest Premium Alfalfa:

- Deep rooted legume with outstanding drought tolerance and yield during the hotter part of summer.
- The long rotation Alfalfa selected for AlfaCut is durable, fine stemmed, high yielding variety with great persistence and deep green foliage.

PHQ Orchardgrass:

- High yielding, late maturing, great establishment
- Mix of superior varieties used for high quality hay and haylage

PHQ Timothy:

- High tonnage spring crop with great palatability
- Later maturing varieties used to provide for production beyond first cutting and have improved grazing tolerance.

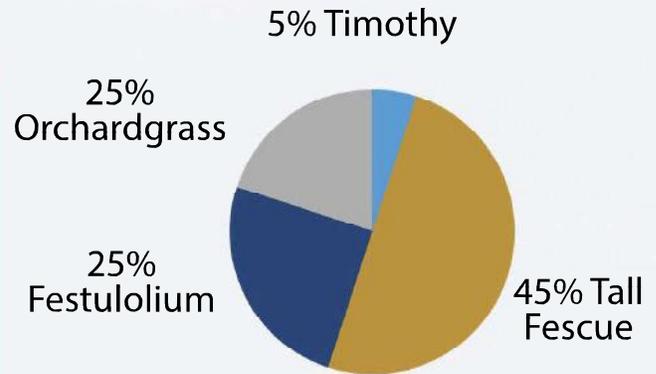

4Grass Hay Mix

Features:

4Grass Hay mix is an all grass hay mix designed with late maturing grasses reaching peak production in late spring to early summer. This provides growers with high quality and tonnage for hay production. Pair it with ProHarvest Alfalfa for exceptional quality.

4Grass is an ideal grass only mixture with high quality and tonnage.

Rate 30-40 lbs/Acre

PHQ Tall Fescue:

- Soft-leaf, late-maturing
- Yields equal to or greater than alfalfa
- High amounts of digestible fiber

Festulolium:

- Cross between fescue and ryegrass
- Palatable, winter hardy, very persistent
- Great for high traffic areas and bare spots in fields

PHQ Orchard Grass:

- High yielding, late maturing, great establishment
- Mix of superior varieties used for high quality hay and haylage

PHQ Timothy:

- High tonnage crop with great palatability
- Later maturing varieties used to provide for production beyond first cutting and have improved grazing tolerance

Pasture Mixes

PowerGraz

RapidGraz

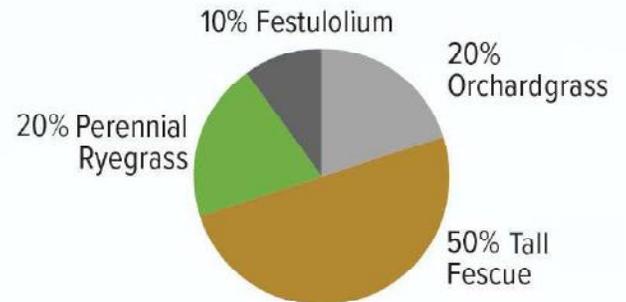

PowerGraz Pasture Mix

Features:

PowerGraz is ideal for cattle, sheep, goat, llama, alpaca and horse pastures. PowerGraz can also be used for high-moisture cutting and hay production.

Rate 30-40 lbs/Acre

Festulolium:

- Cross between fescue and ryegrass
- Palatable, winter hardy, very persistent
- Great for high traffic areas and bare spots in fields

PHQ Tall Fescue:

- Soft-leaf, late-maturing
- Yields equal to or greater than alfalfa
- High amounts of digestible fiber

PHQ Orchard Grass:

- High yielding, late maturing, great establishment
- Mix of superior varieties used for high quality hay and haylage

PHQ Perennial Ryegrass:

- Most widely used cool season grass in the world.
- High in energy, good tonnage, very hardy varieties

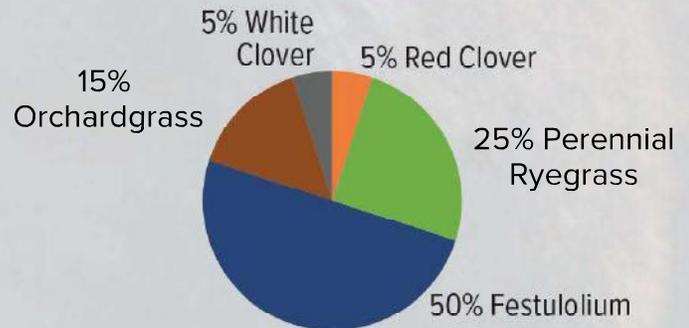

RapidGraz Pasture Mix

Features:

This mix is a combination of Festulolium, Orchardgrass, Perennial Ryegrass, Red Clover, and White Clover. RapidGraz is a five ingredient blend designed for a fast, easy start. This is a short term 3 to 4 year pasture

RapidGraz is great choice for thickening existing pastures.

Rate: 30-40 lbs/Acre

Festulolium:

- Cross between fescue and ryegrass
- Palatable, winter hardy, very persistent
- Great for high traffic areas and bare spots in fields

PHQ Orchardgrass:

- High yielding, late maturing, great establishment
- Mix of superior varieties used for high quality hay and haylage

PHQ Perennial Ryegrass:

- Most widely used cool season grass in the world.
- High in energy, good tonnage, very hardy varieties

Clovers:

- Fix nitrogen and reduce your fertilizer costs
- New and improved varieties for more yield and improved persistence

(Premium) Red Clover

- High yielding with excellent resistance
- Suitable for hay, grazing, cover crops, and pollinators
- Improved disease resistance

Stamina White Clover

- Intermediate type selected for high forage yield and persistence under extremem grazing pressure
- Excellent persistence
- Aggressive growth pattern and stolon density

Red and White Clover Blend

- Mix of (Premium) Red Clover and Stamina White Clover
- Adds diversity to your pasture, improving forage quality in pure grass stands
- Excellent for frost seeding

Summer Annuals

SP2606 BMR Forage Sorghum

- Brown mid-rib for improved digestibility
- Harvest in 85-95 days after emergence
- Excellent for silage
- Double crop silage option

SP4105 BMR Sorghum-Sudangrass

- Photoperiod sensitive (headless) and BMR
- Dual purpose; silage or hay
- Extended harvest window
- Best for hay, haylage, and greenchop

KGS 9707PS AT Sorghum-Sudangrass

- Photoperiod Sensitive (headless)
- Dependable summer forage
- Best for hay, haylage, and grazing
- Good leaf-to-stem ratio
- Can be grazed, also

SP7106 BMR Sudangrass

- Photoperiod sensitive (headless) and BMR
- Extended harvest window
- Best for hay, haylage, and grazing
- Tolerates high cutting frequencies

Millex 32 Pearl Millet

- 40-50 day first cut; 30 days for additional cutting
- No prussic acid concerns
- Improved leaf count and good yields
- Great for chopping, balage, grazing, and superior dry bailing
- Will not outyield sorghum products

SP4408 Prussic Free Sorghum x Sudangrass (New)

- Prussic Acid Free Sorghum x Sudangrass
- Excellent regrowth for multiple cuts
- Excellent stockpile feed
- Best for hay, haylage, and grazing

	Bag Size	Seeding Rate	Comments
Alfalfa			
◆ Eldora III CT Alfalfa*	50 lb.	18-22	Branch Root, Exceptional Yield, Exc Disease Rating
◆ Entree RL CT Alfalfa*	50 lb.	18-22	Reduced lignin, high digestibility, longer harvest time
◆ L-442RR CT Alfalfa*	50 lb.	18-22	Round-Up tolerant, great for problem field, good yield
◆ HopperNot Max CT Alfalfa*	50 lb.	18-22	Leaf hopper resistance, fits medium to long rotations
◆ X-Force 5420- Wet UCT*	50 lb.	18-22	High yield potential, Branch rooted, Exc. winter survival
◆ 2200 UCT Alfalfa	50 lb.	18-22	Economical blend, Uncoated

Key CT-Coated Seed, UCT-Uncoated Seed

Clover			
◆ (Premium) Red Clover CT*	50 lb.	15-20	(Premium) High-yielding, multi-year, hay & grazing
◆ Medium Red Clover UCT	50 lb.	15-20	Short lived red clover
◆ Ladino Clover	50 lb.	2-5	Ladino, Long lasting, grazing persistence
◆ Stamina White Clover CT*	25 lb.	2-5	Intermediate with aggressive growth & large leaves, persistent
◆ Frosty Berseem	50 lb.	15-20	Late maturing, multi-cut annual clover, high nitrogen fixation
◆ Alsike Clover	50 lb.	6-8	Good for wet pastures
◆ Yellow Blossom Sweet Clover	50 lb.	15-25	Good for soil building
◆ Red & White Clover Mix	25 lb.	10-20	70% (Premium) Red Clover, 30% Stamina White Clover

Orchard Grass			
◆ PHQ Orchard Grass*	25 lb.	5-20	Late maturing, high quality, leafy, disease resistant

Tall Fescue			
◆ PHQ Tall Fescue*	25 lb.	25-35	A blend of soft leaf, palatable fescues, hay & graze

Timothy			
◆ PHQ Timothy*	25 lb.	10-15	Late maturing, high yielding, hay & graze type

Perennial Ryegrass			
◆ PHQ Per Ryegrass*	25 lb.	30-40	Excels in quality, palatability, tetra & di-ploid blend

Festulolium			
◆ Hostyn Festulolium*	50 lb.	25-35	Medium-maturing, ryegrass type, excellent yield
◆ Fojitan Festulolium*	50 lb.	25-35	Med-late maturity, tall fescue type, high feed value

Other			
◆ Green Spirit Italian Ryegrass*	50 lb.	35-45	Italian Rye blend, high yields, great overall performance
◆ Centurion Annual Ryegrass	50 lb.	35-45	High feed value, outstanding winter-hardiness
◆ Smooth Brome	50 lb.	30-40	Dependable, best for waterway seeding
◆ Palaton Reed Canary grass	50 lb.	12-18	Very wet & drought tolerant, low alkaloid
◆ Waterway Mix	25 lb.	35-50	65%TF, 15%T, 15%PRG, 5%ARG
◆ Birdsfoot Trefoil	50 lb.	6-8	Late maturing legume, works well on low ph & wet soils
◆ Chicory	50 lb.	2-5	Deep tap root, breaks up hard pans, high value feed

◆ Available on a per pound basis, may be subject to split-bag charge

January 1, 2026
