

# 67P19

**97 DAY**

Available as: SSPRORIB

**SmartStax<sup>®</sup> PRO**  
RIB COMPLETE<sup>™</sup>

**PROHARVEST**  
SEEDS<sup>®</sup>

## PLACEMENT/MANAGEMENT

- Really high-end yield potential for the RM!
- Goes North well with great early vigor and fast drydown
- Good tolerance to high pH soils
- Goes into all yield levels, but keep populations on the higher side for your area

### GENERAL CHARACTERISTICS

|                          |                  |
|--------------------------|------------------|
| GDD Pollination          | 1210             |
| GDD Black Layer          | 2355             |
| Pollination for Maturity | Early            |
| Plant Height             | Medium-Tall      |
| Leaf Type                | Semi-Upright     |
| Ear Height               | Med-High         |
| Ear Type                 | Semi-Determinate |
| Kernel Rows              | 16-18            |
| Cob Color                | Pink             |
| Test Weight              | Good             |
| Husk Coverage            | Medium           |
| Covercrop Companion      | Good             |

### AGRONOMIC FEATURES

|                       |           |
|-----------------------|-----------|
| Emergence             | Very Good |
| Seeding Vigor         | Very Good |
| Stay Green            | Good      |
| Dry Down              | Excellent |
| Delayed Harvest       | Good      |
| Response to Fungicide | Very Good |
| Corn after Corn       | Excellent |
| Silage                | Good      |
| Stress Tolerance      | Good      |

### SOIL PLACEMENT

- HR** **Light Soils:** Low O.M., Low CEC, Low water holding capacity.
- HR** **Medium Soils:** O.M. 1.5-3.5%, CEC 11-20, Good productivity, well drained silt loams.
- HR** **Heavy Soils:** High O.M. >3.5%, CEC >20, Well drained highly productive with deep top soil
- R** **Poorly Drained Soils:** Soils that tend to remain saturated for extended periods of time.

### AREA OF ADAPTATION

- HR** **Western:** West of Mississippi River
- HR** **Central:** I-35 to I-65
- HR** **Eastern:** East of Mississippi River
- HR** Moves South well for an early season hybrid
- HR** Moves North well for a full season hybrid

### NITROGEN APPLICATION

| Rotation - Timing | 100% Preplant | Pre/ Sidedress | Starter/ Sidedress |
|-------------------|---------------|----------------|--------------------|
| Corn/Soybean      | <b>R</b>      | <b>HR</b>      | <b>HR</b>          |
| Corn/Corn         | <b>NR</b>     | <b>HR</b>      | <b>HR</b>          |
| Corn/Cover        | <b>NR</b>     | <b>HR</b>      | <b>HR</b>          |
